DIRECTORS PLAN A TRIP TO UKIAH TO INVESTIGATE THE SNOW MT. PROJECT

The Richmond Water commission voted last night to accept an invitation of General Graham, of the Snow Mountain Power & Water company to go to the plant of the company eighteen miles from Ukah, for the purpose of looking over the project. General Graham believes that Snow Mountain water can be brought to this city by the Richmond Water commission at a cost not to exceed the engineers' estimates on other projects which have been outlined to the commission.

It is the purpose of the commission to make the trip in automobiles and they expect to start Saturday morning, April 22nd and will be absent until Monday evening. They will go direct to Ukiah and from thence to Snow Mountain, which is about eighteen miles from that place. A committee has been appointed by President J. B. Willis to arrange transportation and other details of the proposed trip.

Gale S. Stroud, a hydaulic engineer with offices in the Sheldon building, San Francisco, was at the meeting last night and talked to the commissioners concerning the problem before them of supplying water to this rapidly growing city. Mr. Stroud said that he believes an adequate supply of potable water can be obtained for this city, including the purchase of the present distributing system now owned by the Peoples Water company, for the sum of a very little in excess of a million dollars.

The members of the water commission explained to Mr. Stroud that they were not in a position at the present time to go into his proposition in detail, but before taking definite steps looking toward actual construction they would doubtless go over his plans. He offered to present his facts and figures without any cost to the water district and only in the event of an acceptance of his plans would he expect any remuneration at the hands of the commission.

Hereafter when you go to pay your electric light bill, don't forget that the company has changed its place of business and is now located directly opposite the main post office building on Sixth street.

3 TON ROLLER MANGLES DRIVER

RALPH PYNCHON, FORMER COAL MERCHANT, IS DYING AT HOSPITAL FROM INJURIES

3 O'CLOCK—CONSCIOUS TO THE LAST MINUTE AND FIGHTING A GAME BATTLE AGAINST DEATH RALPH PYNCHON OVER WHOM FOUR SURGEONS WORKED, DIED AT A LATE HOUR.

Ralph Pynchon, residing at 125 South Eighth street, and a former coal merchant in this city, lies at the Craven hospital with both legs and hips crushed and with little chance to live as the result of an accidental fall beneath a three ton street roller at Fourth street and Ripley avenue this afternoon.

Pynchon in the employ of E. H. Higgins, a contractor, was driving the four horse roller from the Cushing barn on Ripley avenue preparatory to rolling the ballgrounds at First street for tomorrow's game. As the roller pumped over the curb to the street it jostled Pynchon from his seat, the heavy wheels passing over his body as far as his hips.

Still conscious Pynchon was rushed to the Craven hospital where Drs. U. S. Abbott, W. E. Cunningham, Irwin B. March and Hall Vestal are working to save his life.

Pynchon was a former business partner of Mrs. F. F. Adams in the coal and drayage business at 611 Macdonald avenue.

Witnesses seeing the accident called out the police patrol and ambulance both of which arrived on the scene a few seconds later.

According to some, Pynchon seemed to be having difficulty with the four horse team drawing the roller. This coupled with the bump of the roller going over the curb is though to have thrown him from his seat.

Pynchon came to this city in 1911 from Chico. He has a wife and four children—two boys and two girls.

U. S. SQUAD IS ANNIHILATED

EL PASO, April 15.—Unconfirmed reports that a second battle between Mexicans and American troops has occurred in Mexico were circulated here today following receipt of official dispatches from the front.

According to these reports a detachment of the Tenth Cavalry, negroes, was trapped and wiped out by the Mexicans.

A detachment of the Thirteenth Cavalry, which rode to the rescue, surrounded and annihilated the Mexicans who ambushed the Tenth Cavalry party.

No official confirmation of these reports is so far obtainable.

164,877 AUTOS ARE RESISTERED IN STATE

SACRAMENTO, April 15.—The number of automobiles registered in California is 164,877—1082 cars more than the total number registered for the year 1915, and the greatest number ever recorded. The collections of the department are $1,800,417.95, of which $1,713,589.60 was paid by automobile owners.

The high price of gasoline has not decreased the number of new cars purchased.

The registrations for the first twelve days of April numbered 5660. The total registrations for March were 8325.

WRONG FOR DIVORCEE TO ASSUME 1ST NAME

YUBA CITY, April 15.—There is no law in California under which a divorced woman can resume her maiden name, holds Judge Mahon of the Sutter county superior court. Mahon admits that an old English custom permitted this procedure in certain cases, and at the discretion of the judge.

The jurist says that, in his opinion, if a woman who obtains a divorce also wishes to resume her maiden name, the question must be determined by separate process of law.

So far as the records seem to show, Judge Mahon has never allowed a divorcee to resume her maiden name, and continued requests led to the announcement of his views on the matter.

GOOD HUSBANDS

The Fresno Herald, quoting Miss Marlott of the University of Wisconsin, the lady occupying the chair of home economy in that institution, declares that women teachers assert husbands do not take any interest in home affairs and that, therefore, they shirk their domestic duties.

We ought to train 'em. That's the solution offered of the problem.

Now there is no doubt of the quantity of husbands. We have got the husbands, all right, but there is some doubt as to their quality. All husbands will stand as one in their reply to the indictment. Husbands, you know, are always prepared to stand for their rights. They will tell us they have more interest in home problems than college teachers who do not marry, at any rate.

It is hard to arrive at any satisfactory reply to Miss Marlott's charges. There are as many answers as there are husbands. But all of use are ready to conclude that a husband turned out of a college mold is worse than no husband at all. The best way we know to get good husbands is for husbands to get good wives. Good wives will make good husbands, the colleges can't do it. And then when some college women declares husbands aren't interested in the home we're going to ask who pays the bills!

CLEAN MOTION PICTURES

In the May Woman's Home Companion a campaign for cleaner moving picture films is inaugurated. In the leading editorial are given facts that seem to show that the bulk of motion picture devotees prefer the "risque" film to the clean one.

"The president of a moving picture company which, from its organization, has led the fight for better, cleaner films, discovered three months ago a falling off in the company's receipts in a certain state in the Middle West," we read. "He sent an agent into that territory to investigate. This interview which took place between the agent and the owner of a theater in a city of five thousand was typical.

"'Why have you given up our service?' the agent asked.

"'Couldn't make your pictures pay.'

"'Weren't the pictures good?'

"'Yes, too good.'

"'What do you mean?'

"For answer the theater-owner produced his record of receipts for the preceding four weeks.

"'Here's what I mean,' he said, 'I wanted to stock to you people. I believe in what you stand for, and I know you produce the finest pictures in the business.

"'When I have shown your clean, high-grade pictures during the past month I have averaged $22 a day—not enough to pay my expenses. When I have shown Blank's pictures (naming a manufacturer whose product is notoriously suggestive in title and character) my receipts have averaged $53. I've got a wife and kids; I want to be decent. But I've got to live. What is a man going to do?'"

BE TRUE TO YOURSELF

To self be true,
"This above all: To thine own self be true,
And it must follow, as the night the day,
Thou can'st not then be false to any man. —Hamlet.

In thinking of truth and in acting it in our daily lives we are apt to fall into a false way of regarding it as an attribute of great things, a companion to great capers and works. The small lie, we argue, can do none any harm and may make the road sweeter or pleasanter for someone.

The littl exaggeration, which will add interest and point to our telling of this or that happening, is harmless, we are pleased to think.

It is true that as far as others are concerned these little infringements may not entail any of the penalties of falsehood.

But what of ourselves!

What would men think of our comforting and our wit if they knew both were born of falsehood!

What have the centuries thought of the men and women who were true to themselves and in that way, through scorn and assault, finally proved their truth to the best that was in men and matters!

The truth that counts is that which is faithful to little things.

It realizes the fact that before we can give anything we must in some way get it. So before we can be truthful to others we must be to ourselves.

When we have achieved that we have achieved a great work in the building of character.

A CURE FOR EXCUSES

A truant school boy stood stolidly before a justice of Chicago, and grinned contempt when the teacher testified that he had been absent from school five days in one week and that his attendance all this year and last year was only spasmodic.

The boy felt that his defense was sound. He had tested it often and it never had failed. He spoke up confidently:

"I had the toothache."

"You didn't have the toothache this year and last year, too did you?" asked the court.

"Yes, sir," replied the boy.

The father was questioned.

"Why have you kept your son out of school in violation of the law?" demanded the justice.

"He had the toothache," answered the father.

The mother was sworn.

"What do you mean by not sending your son to school?" asked the court.

"He had the toothache," answered the mother.

"You will pay $5 and cost," said the justice," and have that tooth pulled immediately."

"That tooth must be pulled before night. If it is not I will have you brought back here and fined $20 and costs."

Here is a precedent in law that may find infinite application. There is no principle of law good for boys that is not also good for men.

Since it is the law that toothache must not be made a convenience by a boy, there are lots of excuses offered by men for direlection of duty which call for rigid inquiry and heroic treatment.

ATTEND EASTER SERVICES

What are you going to do Easter Sunday?

Go into a church and sit down. Stay sit until the end of the service and keep your ears open and your mind on what the preacher is saying. Then go home and think over what he had to say. Don't give his words just a passing though and then let your mind slide back into the old financial groove.

Take his discourse subject by subject and analyze it throughly. Pick out the good points and study them minutely as you discover them. You can spend several hours very pleasantly in this work, and at the end of that time you may be amazed at the feeling of peace and contentment that pervades your being.

You will find that there are many things you knew that had been forgotten for these many years, and when they pass from memory their value practically ceases to exist.

Go to church Easter!

Set an exampe for the young people of your family and of other people's families. Let them judge you by what you are, and not by what others may have to say of you. Let your own actions afford them the opportunity for so judging.

There's a church around the corner, and the door swings outward to every human being. The hand of welcome beckons to you, and the still voice of conscience is calling to you.

SUGAR WILL SOON BE $8.00 A SACK

The wholesale price of refined cane sugar has been advanced this week to $7.85 per hundred pounds. The retail price for a hundred-pound sack will therefore be about $7.85.

Don't blame the grocer. He is not at fault this time, and he makes precious little profit on sugar anyway, unless he is fortunate in speculating in it.

Sugar prices are more easily controlled by the producer than is the case in many other foodstuffs. Only limited areas of the world are adapted to beet or cane culture. When conditions are propitious, sugar producers are able to control the wholesale market, and, just now, prices for sugar throughout the world are regulated by the market for raw sugar in New York.

MANY KIDDIES TO RECEIVE FREE TICKETS TO CIRCUS

THE RECORD-HERALD WILD ANIMAL PRIZE CONTEST

To the Wild Animal Editor:

I hereby certify I am not over fifteen years of age and I submit .....names of wild animals in your prize contest for free tickest to the Al G. Barnes Big Four Ring Wild Animal Circus exhibiting in Richmond on April 19th.

NAME .....

ADDRESS .....

(Pin one of these coupons on your list.)

Well, we simply never knew there were so many wild animals before. Lists in the Record-Herald wild animal contest are still pouring in and several little boys and girls have gone clear back into the jungles of Africa and brought out fearsome animals we never knew existed.

The kids in this contest, besides winning free tickets to the Al. G. Barnes big four ring wild animal circus which shows in this city April 19 in afternoon and evening performances, are learning a lot and so are we. And just think what it is going to be like to look up the names of these wild animals and read about them, then go to the circus with gold jingling in your pocket to buy penauts and popcorn and pink lemonade, and see these wonderful and fierce animals do the marvelous things that remarkable men, Al. G. Barnes, and his trainers have taught them to do. Isn't it dandy? And you can win if you'll try.

Do you know the conditions of the contest? If not get a copy and read them. Then get get busy.

No more interesting feature is presented by the Barnes wild animal circus than the corps of equestrians. In fact the Barnes show has more of them than any other circus. Instead of people appearing as riders, trained animals perform the acts.

In one act a company of Rocky Mountain goats appear as riders of galloping horses. Apes, chimpanzees, monkeys and dogs also work in the act.

A quartette consisting of a leopard, lion, grizzly bear and goat, ride together in a very remarkable exhibit. This act involves one of the greatest attainments known among animal trainers, as the lion, leopard and bear are deadly enemies and the most feared foe of the horse, yet they have been trained to work harmoniously together.

Another spectacle almost unbeliveable, is a horse carrying man-eating African lions. These lions leap from the ground onto the backs of running horses, and from the backs of the horses through hoops of fire. The training of these animals consumed months of time.

Astonishing indeed, are the feats performed by a group of seals and sea lions. These cumbersome animals have been taught to ride horseback and at the same time juggle small articles such as billiard balls on the tips of their noses.

The horses and ponies ridden by these wild animals are members of Barnes troupe of world's premium stock. This horse troupe numbers 550 members and no finer, more beautiful nor better educated horses exist.

Forty fun-making ponies, mules, bears, elephants, dogs, goats and monkeys provide the fun spots on the program. They're real grouch dissolvers.

Hours for performances are 2 and 8 p. m. with doors opening at 1 and 7 p. m. The parade will start promptly at 10:30 p. m.

And remember today is the last day. Your list must be in by 6 p. m. at the Record-Herald office. Remember, now, get your list to the wild animal editor of the Record-Herald not later than 6 p. m. tonight and watch Monday's papers for announcement of distribution of prizes.

HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

NOTES FROM THE PLAYHOUSES

PANTAGES THEATRE (Oakland).

Oakland may soon have one of the largest motion picture studios on the coast, turning out films for a big vaudeville circuit, and making feature comedies. This was announced today when secretary Joseph E. Caine of the Chamber of Commerce made public the fact that Alexander Pantages, vaudeville magnate, has decided to enter the field, and is considering Oakland as the site for his studio.

Pantages plans to manufacture film plays for his own circuit, featuring Chris Richards, declared to be the funniest film comedian in America. A modern plant, costing several hundred thousand dollars, fully equipped for all manner of plays, is projected, and a large cast will be employed steadily, besides the force of camera men, stage hands, and others incidental in the manufacturing of films.

The site has not yet been chosen, although several locations have been considered. The studio would need several acres, in a district about which cottages for the performers could be constructed. It is probable that a boulevard site will be chosen, according to the vaudeville magnate. Secretary Caine is now engaged in gathering material and data for presentation to Pantages when he arrived shortly in Oakland to personally discuss the situation.

Pantages for years has been confronted by a problem in the matter of films, offerings exactly suited to his houses being hard to locate. He decided to make the films himself, under his person direction, thus saving film exchange expenses, and, at the same time, producing films that will also be exhibited in the East and abroad.

Chris Richards, the noted comedian who will be the principal laugh maker of the new film company, is declared to be in himself a valuable asset to the company. He has been signed up with a life contract by Manager Pantages, and will appear in real life as a vaudeville performer before taking up his film work.

The canyons about Oakland will furnish the stting for a number of special film offering to start the operations of the new plant.

ORPHEUM THEATRE (Oakland).

Mme. Chilson Ohrman, the young prima donna soprano, who comes next week to the Oakland Orpheum is of Dutch and French parentage. She has toured with brilliant success with the New York Symphony orchestra and the Minneapolis, St. Paul and Chicago Symphony orchestras. She was a distinguished pupil of Jean de Reszke in Paris and was engaged for the Opera Comique in Paris, and the Royal Opera at Convent Garden in London when the outbreak of the European war caused a postponement of her contract. Music lovers may properly anticipate a treat in her performance.

George Howell, with an unusually clever supporting company, is playing Agnes Scott's rather different sketch "The Red-Fox Trot," and is giving to vaudeville a page of today's "butterfly life."

"The Girl in the Moon," is a charming musical offering with a mysterious and pleasing finish. A pretty maiden clad in dainty pajamas sitting in a new moon, sailing out over the audience, dropping now and then low amongst them, pinning carnations in the button holes of some of the gentlemen, singing to them all the whole—that is "The Girl in the Moon."

What Paderewski is to the piano, Spaulding to the violin, and Hans Kronold to the 'cello—Pietro is to the paino accordion. This man takes this instrument which recently has attained a dignified standing among musicians, and gives it a human voice.

The La Grohs are pantomimic contortionists, and as such present an eccentric novelty that is full of all sorts of twists. The trio work in evening dress and attempt to give the effect of being quite at home in a drawing room.

The idea that most choreographic or classical dances hail from abroad is a fallacy. There are more eminent descriptive dancers in this country than in any other and not least among these may be mentioned Miss Catherine Powell, who has made known the world over the ability of American dancers.

Miss Powell has just returned from a tour abroad and with the assistance of "Adele" is presenting a series of dances from her repertoire in vaudeville.

Mason and Murray will offer songs and chatter that will be thoroughly diverting.

Mme. Bertha Kalich, the world-famous emotional actress, will be seen as the star in a new five-part screen play called "Shinder." Both star and play are said to be superb.

MOTOR MOBILITY FOR CITIZEN TROOPS MAY DOOM CAVALRY?

Some military experts profess to see much less use of cavalry in the possibilities by which an entire army of infantry may be rushed to a given point with motor truck transport. They predict that, after the present war, the horse will largely vanish from one of his most ancient fields of endeavor.

This theory was tested by Ohio national guardsmen over the admirable system of brick paved highways which radiate from Cleveland. They found that a speed of twenty or more miles an hour could easily be maintained in the movement of a considerable body of troops. Under these conditions many of the ordinary problems of a military campaign disappear. If wood and water are lacking at a camp site, both commodities are easily brought.

Field pieces can be hauled behind such vehicles at a speed determined by the ability of the gun carriage to withstand the vibration. The existence of 2,500,000 motor vehicles in America has led to the suggestion of a motor militia, to be armed with machine guns, a force which could be concentrated with deadly rapidity in case of attempted invasion.

A part of such a plan would be a system of paved highways leading to points of vantage and enabling complete resistance against landing forces at close range. These highways would of course be more than a mere military investment, having all the utility of market highways in times of peace.

AT RICHMOND THEATRE

The picturesque grandeur of Alpine surroundings has been used as a background for Marguerite Clark's latest film appearance, "Out of the Drifts," the Famous Players-Paramount picture which is the attraction at the Richmond theater tonight for the last time.

"Out of the Drifts" is a tale of the eternal snows, of avalanches, dizzy heights and yawning chasms, ranging from the pastoral beauties of Alpine shepherd life to the grim fight for mere existence against the smashing, hurricane-driven snows. But the battle against the elements is not the only one in which the diminutive star is pitted against a powerful adversary. She is a simple unsophisticated little shepardess whose very innocence and beauty arouse in a dissolute visitor at the village which is here home the lowest impulses of his nature. But the very innocence which led her into the trap proves her salvation, for it in turn awakens a sense of shame and repentance in the man who turns over a new leaf and thoroughly changes his mode of life.

In this stirring tale Miss Clark has an opportunity to do a different sort of acting from anything she has done before, but the same irresistible charm is there and the unforgettable Clark personality invests the little mountain lass with the appealing loveliness that holds one fascinated to the very end of the story.

Other features on the bill are the Starlight comedy, "Hot Stuff" wherein Louie and Heinie, two Dutchman, swipe a stock of toy baloons from an Italian peddler which they attempt to sell. They are pursued by the "Dago" who with a large varying knife causes dismay to enter their brave hearts.

The balloons eventually pay for the trouble experienced in getting them by providing for them a means of cseape from a tall building in which they are confined by a gang of counterfeiters by whom they are captured.

The Pathe News picture presents a vast amount of current information.

Manager Wilson of the Richmond theater presented a most attractive vaudeville bill tomorrow. Judith Resuch, has a number of interesting singing and dancing specialities.

Steadman and Richards have some comedy singing and talking stunts that are sure to please.

Miller and Rainey are billed as having some "comic oddities" that are guaranteed to bring down the house.

In addition there will be seven reels of high class motion pictures. "The Iron Stain" is the title of the big five reel offering and two reels are devoted to "The Gay Old Knight."

GRIPPE EPIDEMIC SPREADING RAPIDLY

DRS. CHAN AND KONG SHOW THE WAY TO HEALTH.

Within the last few weeks an epidemic of La Grippe has spread with alarming rapidity throughout the United States. The Grippe has long been regarded as a subject for jest, and it is only recently that the real seriousness of the illness has been made known to the public. Prominent among the leading physicians of the country who are waging an instructive campaign for the prevention and cure of La Grippe is Dr. Chan of the firm of Chan & Kong, famous Chinese Herb Doctors. When interviewed, Dr. Chan said: "Preparedness should be the keynote of the public in warding off La Grippe. As the United States is now building up her Army and Navy to insure immunity against war, so should the great American public build up its health to forestall the ravages of disease such as La Grippe. The only successful method, to my way of thinking, is to rely on Nature for a cure. Medicinal teas made from natural grown herbs will build up your system and enable you to successfully combat La Grippe. Why not turn, then, to the famous Chinese herb specialists, Drs. Chan and Kong—who are widely known as the most successful herbists?

"If you are a 'Doubting Thomas,' we refer you to our letter files, where you can examine hundreds of testimonials that express the undying gratitude of those who have despaired of human relief before being cured by Nature's herbs, administered by Drs. Chan and Kong.

"In order to educate the public to the correct way of combatting La Grippe, we offer one week's trial of our phenomenal teas at actual cost."

Drs. Chan and Kong offer you this in the knowledge that you will be convinced. Offices, 901 Clay Street, Oakland. Consultation and pulse diagnosis free to all. Office hours: Sunday 9-12. Daily, 10 a. m. to 8 p. m.—Advertisement.

Thomas P. Powers, 240 Third St., Richmond, says: "Having followed railroading for a number of years, the jarring finally brought on trouble with my kidneys. I frequently caught cold and nearly always acute and piercing pains darted across my back. I had a consistent desire to pass the kidney secretions, but they were scanty. After taking various remedies and doctoring, I finally used Doan's Kidney Pills. I was cured and have remained so for three years."
